AB - J58015904 Oily cosmetics contain polyethylene of average mol. wt.
of 300-700 (500-700). The oily cosmetic includes lipstick, eye-shadow
eye-liner, etc. Amt. of polyethylene is pref. 30-95 wt.% of total
compsn.
Cosmetic composition can easily be peeled off from the mould when
moulding, and thus the surface of the moulded cosmetic is smooth. (3p
